NEW VEHICLE WARRANTY

There are no warranties, expressed or implied, on Chevrolet motor vehicles sold by Dealer except the following New Vehicle Warranty which Dealer, as Seller, and not as agent of the Manufacturer, gives to Purchaser on each new Chevrolet motor vehicle sold by Dealer:

Dealer warrants (except as hereinafter provided) each new Chevrolet motor vehicle and chassis, including all equipment or accessories thereon manufactured or supplied by Chevrolet Motor Division of General Motors Corporation, sold by Dealer to be free from defects in material and workmanship under normal use and service, Dealer's obligation under this warranty being limited to repairing or replacing at Dealer's option, without charge for installation by Dealer at Dealer's place of business, any part or parts thereof which shall, within twelve (12) months after delivery of such vehicle or chassis to the original purchaser or before such vehicle or chassis has been driven twelve thousand (12,000) miles, whichever event shall first occur, be returned to Dealer at Dealer's place of business and which Dealer's examination shall disclose to its satisfaction to have been thus defective.

The provisions of this warranty shall not apply (1) to tires or tubes, or (2) to normal maintenance services, including but not limited to, fuel system cleaning, wheel alignment and balancing, engine tune-up, and brake inspection or adjustment, nor to the replacement of spark plugs, ignition points, condensers or filters when such replacements are made as part of any such normal maintenance service, or (3) to any motor vehicle or chassis which shall have been repaired or altered outside of an authorized Chevrolet dealership in any way so as in the judgment of Dealer to affect adversely its performance and reliability, or (4) to any motor vehicle or chassis which has been subject to misuse, negligence or accident.

This warranty is expressly in lieu of all other warranties, expressed or implied, and all other obligations or liabilities on Dealer's part, and Dealer neither assumes nor authorizes any other person to assume for it any other liability in connection with such motor vehicles or chassis.

Design Changes

The Manufacturer has reserved the right to make changes in design or add any improvements on motor vehicles and chassis at any time without incurring any obligation to install some on motor vehicles and chassis previously purchased.

Paint and Other Appearance Items

Imperfection in paint, trim or other appearance items is normally apparent and corrected during new vehicle pre-delivery conditioning. Damage due to usage is not covered by warranty. For your protection, you are urged to immediately call any imperfection to the attention of your selling Dealer, so that he may make any necessary correction.

Tire Warranty

Tires included as original equipment on Chevrolet vehicles are not included within the provisions of the New Vehicle Warranty. They are covered by the Tire Manufacturer's Guarantee. Your Dealer will assist you when a tire adjustment is necessary. In this connection your Owner Service Policy will provide you with the date of delivery of your vehicle.

Battery Warranty

The Delco battery in your vehicle is covered against defects in material and workmanship under the terms of the New Vehicle Warranty for a period of twelve (12) months or twelve thousand (12,000) miles, whichever first occurs.

DELCO BATTERY ADJUSTED SERVICE POLICY

For the purposes of this Adjusted Service Policy the following terms shall have the following meanings:

Adjusted Service Policy Period—The period commencing with the expiration of the warranty period and expiring twenty-four (24) months (in the case of Corvairs) and thirty-six (36) months (in the case of other Chevrolet passenger cars) from the date of delivery of the vehicle to the original purchaser if in normal passenger car use. (For other types of passenger car use, such as taxi cabs and police cars, see your car or Delco battery dealer to determine the Adjusted Service Policy Period applicable to the Delco battery in your particular vehicle.)

Months of Service—The total months covered by both the Warranty and Adjusted Service Policy periods. The "months of service" commence to run on the date of delivery of the new vehicle to the original purchaser.

Undelivered Months of Service—The difference between the "months of service" and the months of actual service received.

Owner's Cost Per Month—The per month cost of the replaced battery to the owner determined by dividing the "months of service" into its current Delco battery manufacturer's suggested list price (or fleet owner's current cost).

DELCO BATTERY ADJUSTED SERVICE POLICY (Continued)

Should the Delco battery in your vehicle prove defective under normal passenger car use within the Adjusted Service Policy Period the defective battery can be exchanged for a new Delco battery of equal or greater capacity on an adjusted service (pro rata) basis at the place of business of an authorized Chevrolet dealer or Delco battery dealer. Credit toward the purchase of such new Delco battery will be equal to the "owner's cost per month" of the replaced battery multiplied by the number of "undelivered months of service".

Upon the expiration of the warranty, the Adjusted Service Policy applies on a "months of service" basis only and mileage is not a factor. In no event is the date of installation of a replacement battery installed without charge pursuant to the warranty used as the beginning date for the months of service.

The provisions of this Adjusted Service Policy shall not apply (A) to failure in service due to misuse, negligence or accident, including but not limited to improper installation, freezing, failure to have battery inspected and filled with clean water periodically, use of electrolyte other than "battery grade" sulphuric acid solution of a specific gravity recommended by Delco-Remy Division of General Motors Corporation, or (B) to costs for recharging this battery or for the use of a rental battery.
