CUSTOMER SATISFACTION...IS OUR PRIME OBJECTIVE

... We can only accomplish this by making you feel this is your "service home" ... by informing you of the proper service care your vehicle needs ... by providing you with quality service performed by our trained personnel using General Motors Genuine Parts.

... We believe the finest of service is Guardian Maintenance service ... performed by our skilled technicians trained in General Motors Training Centers ... where they are schooled in proper service procedures.

THE AMOUNT OF MAINTENANCE A VEHICLE REQUIRES DEPENDS ON HOW AND WHERE IT IS USED. Stop-and-go city driving, hot or cold weather driving, adverse climatic conditions are all important factors influencing the service care required. REGULAR INSPECTION AND SERVICE CARE IS IMPORTANT TO YOU. Little things can become big if they go unobserved and unattended due to lack of regular service.

POLICY ON OWNER SERVICE

- 1. DELIVERY**—To help you secure maximum satisfaction with your new Chevrolet truck, it has been inspected and conditioned by the selling dealer according to the pre-delivery inspection schedule recommended by Chevrolet.
- 2. VERIFICATION VOUCHER**—When warranty service is performed on your vehicle by a Chevrolet dealer, you will be required to sign and surrender to such dealer one of the Verification Vouchers included in this booklet. If such Verification Vouchers have been used or lost, notify such dealer. Prior use or loss of Verification Vouchers does not in any way void or affect the New Vehicle Warranty. While services under the New Vehicle Warranty may be furnished by any authorized Chevrolet dealer, it is recommended that warranty services be performed by the Chevrolet dealer issuing this booklet and from whom you purchased your vehicle, because of his continued and personal interest in you.
- 3. OWNER RESPONSIBILITY**—Proper maintenance and care of your Chevrolet truck will help you achieve lower over-all operating costs. Also regular and proper maintenance of your Chevrolet truck by competent technicians will help you avoid conditions arising from neglect which are not covered by the New Vehicle Warranty.
- 4. TOURING OR CHANGE OF RESIDENCE**—When touring or in the event you move, any authorized Chevrolet dealer in the U. S. or Canada will honor the New Vehicle Warranty.
- 5. DESIGN CHANGES**—The Manufacturer reserves the right to make changes in design or add any improvements on motor vehicles and chassis at any time without incurring any obligation to install same on motor vehicles and chassis previously purchased. Dealer reserves a similar right.
- 6. PAINT AND OTHER APPEARANCE ITEMS**—Imperfection in paint, trim or other appearance items is normally apparent and corrected during new vehicle pre-delivery conditioning. Normal deterioration due to use and exposure is not covered by warranty. For your protection, you are urged to immediately call any imperfection to the attention of your selling dealer, so that he may make any necessary correction.
- 7. WARRANTY SERVICE LOG**—This booklet also contains a "Warranty Service Log" which should be kept up-to-date by your servicing dealer whenever warranty service is required on your vehicle. This will not only provide you with a record of such services but will also establish information for subsequent owners use.

BATTERY

The Delco battery in your vehicle is covered against defects in material and workmanship under the terms of the New Vehicle Warranty for a period of twenty-four (24) months or twenty-four thousand (24,000) miles, whichever first occurs. The provisions which follow relating to battery service adjustments also apply to your Delco battery.

DELCO BATTERY SERVICE ADJUSTMENTS

For the purposes of these adjustments the following terms shall have the following meanings:

Adjusted Service Period—The period commencing with the expiration of the warranty period and expiring from 24 to 48 months from the date of delivery of the vehicle to the original purchaser depending upon weight and application of the vehicle. (See your Chevrolet truck or Delco battery dealer to determine the Adjusted Service Period applicable to the Delco battery in your particular vehicle.)

Months of Service—The total months covered by both the Warranty and Adjusted Service periods. The "months of service" commence to run on the date of delivery of the new vehicle to the original purchaser.

Undelivered Months of Service—The difference between the "months of service" and the months of actual service received.

Owner's Cost Per Month—The per month cost of the replaced battery to the owner determined by dividing the "months of service" into its current Delco battery manufacturer's suggested list price (or fleet owner's current cost).

DELCO BATTERY SERVICE ADJUSTMENTS (Continued)

Should the Delco battery in your vehicle prove defective under normal use within the Adjusted Service Period the defective battery can be exchanged for a new Delco battery of equal or greater capacity on an adjusted service (pro rata) basis at the place of business of an authorized Chevrolet dealer or Delco battery dealer. Credit toward the purchase of such new Delco battery will be equal to the "owner's cost per month" of the replaced battery multiplied by the number of "undelivered months of service". In the case of batteries designated for twenty-four months of service, there will be an adjusted service period only in the event the New Vehicle Warranty expires by mileage prior to twenty-four months from date of sale to the original purchaser.

See your Chevrolet dealer or Delco battery dealer to determine the adjusted service period applicable to the Delco battery in your particular vehicle.

Upon the expiration of the warranty, the Adjusted Service Period applies on a "months of service" basis only and mileage is not a factor. In no event is the date of installation of a replacement battery installed without charge pursuant to the warranty used as the beginning date for the months of service.

The provisions of this Delco Battery Service Adjustments shall not apply (A) to failure in service due to misuse, negligence or accident, including but not limited to improper installation, freezing, failure to have battery inspected regularly and filled with colorless, odorless drinking water when needed, use of electrolyte other than "battery grade" sulphuric acid solution of a specific gravity recommended by Delco-Remy Division of General Motors Corporation, or (B) to casts for recharging this battery or for the use of a rental battery.
